Product catalogue

GREENGAUGE SPORTS

- Bowls

- Shoes

- Bags

- Accessories

- Clothing

A warm welcome to all bowlers.

We hope that you find our NEW product catalogue to your liking.

The country is again facing adversity with the war in Ukraine and its effect on World Markets especially resulting in inflationary pressures. From a Sporting perspective we have seen increases in pricing at a level that has not been witnessed previously.

Despite these challenges we here at Greengauge continue to invest in our Sport and are pleased to launch several new products for the coming season including three Henselite trolley bag ranges and new colours in the Professional Sports carry bag. We have the Henselite Active trolley bag range in 4 colours that include a quality 4 bowl carrier and waterproof rain cover. We have a limited edition Henselite Rose Trolley bag in black with rose gold trims which is sure to be popular. We also have two colour options in the new Henselite HT805 trolley bag. The ever-popular Professional Sports Bag is available in four new colours.

On the bowls front it would appear that the availability of bowls in general, which includes the Henselite and Almark models and colour options will be severely restricted in the coming 12 months. The general view is that coming 'normality' will take until early 2024 to be achieved. At that time, it is expected more choices will be available 'off the shelf' as has generally been the practice.

Later in the season we are releasing five new Henselite bowling shoes. Images along with full details are available throughout our catalogue.

What a season again for Team Henselite players.

The Summer of 2022 brought huge amounts of Commonwealth success with Gold and Henselite being the common theme. It was particularly exciting seeing the emergence of the Team India ladies four with their Gold medal success.

On the Indoor front 2023 started off with a bang when Katherine Rednall won the World Ladies Singles title for an incredible fifth time. In the Gents pairs it was an all Henselite final. The experienced pairing of Greg Harlow and Nick Brett taking the honours against a new partnership in Mike Stepney and Jason Greenslade. The fantastic standard of bowling continued into the Open singles. As the dust settled on the Worlds we had a new World Number One in the shape of the immensely talented Paul Foster MBE.

Check us out at www.greengaugesports.co.uk or like and follow us on Henselite UK Facebook page where we will be updating our followers with news and the release of new products on a regular basis.

Our individually designed Henselite Club Clothing is proving to be a huge hit with Clubs and Associations throughout the UK bringing some much-needed colour into our sport, check out www.clubclothingshop.co.uk

This catalogue www.greengaugesports.co.uk/catalogue will be updated on an ongoing basis. Further new products and news updates will be announced on our website and Facebook page. Greengauge acquired the popular Emsmorn brand in 2019 and we have produced a new Emsmorn product brochure which is also available at www.emsmorn.co.uk and all products shown are in stock.

Our Sport of bowls continues to be a focal point in communities throughout the UK. Let's hope that 2023/24 is when Bowls makes a comeback. We will enjoy the fresh air of the Outdoors and then roll into the Indoor in September. Everyone here at Greengauge is looking forward to promoting our Sport and working with our valued customers to make this coming 12 months a great success.

A handwritten signature in black ink, appearing to read 'Graham Robertson'.

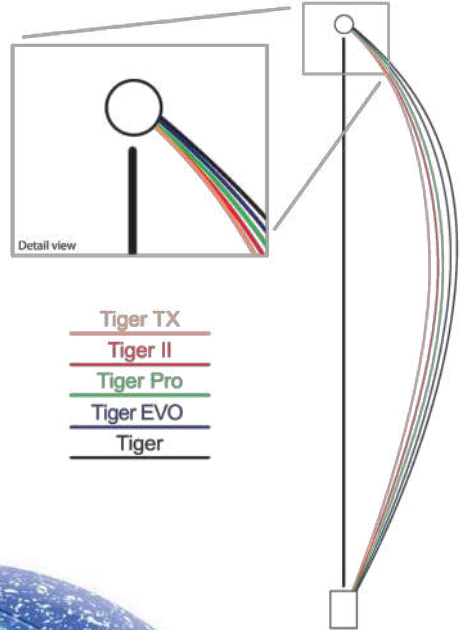

Graham Robertson
Managing Director

Tiger Code A10/A15HT1

The Tiger is a full biased bowl making it the ideal choice for both indoor and outdoor bowling. The Tiger has proved to be easily the most successful 'TV tournament' model since its introduction in 2004. It is highly suited to back end players who require a bowl that has a relatively strong finish to draw round short bowls. The Ergo Fit profile and Mega Grip will maximise comfort and add precision to every delivery.

Available in heavyweight only.
See page 9 for the full colour and size range.

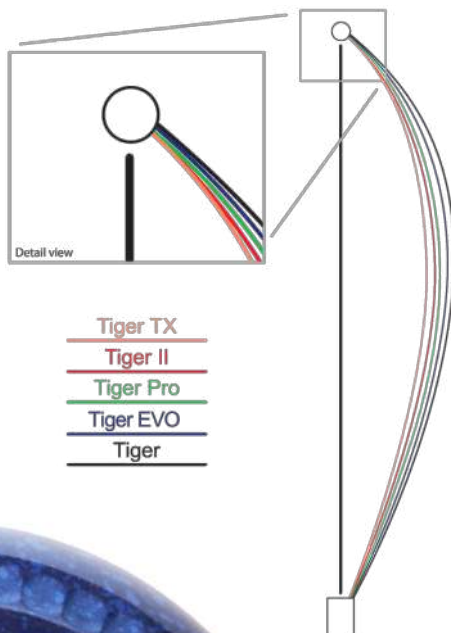

Tiger EVO Code A10/A15HTE

Developed in partnership with World Champion bowlers, the Tiger EVO bias line is the mid-point between the popular Tiger and Tiger Pro. Looking to find the perfect road to the jack, the EVO is ideal for a full range of shots and is suitable for all indoor and outdoor surfaces. The Ergo Fit profile and Mega Grip will maximise comfort and add precision to every delivery.

Available in heavyweight only.
See page 9 for the full colour and size range.

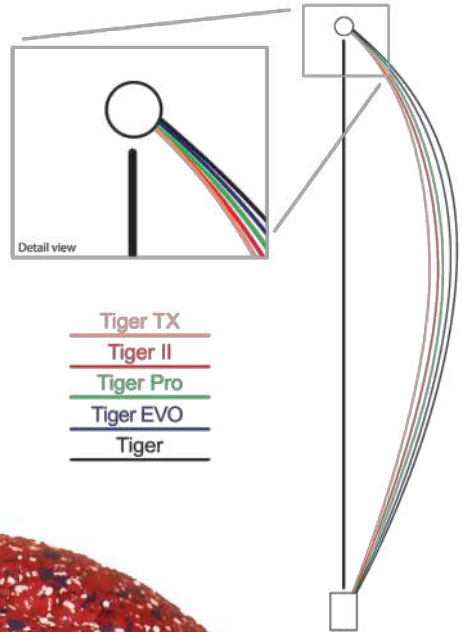

Tiger Pro Code A10/A15HTP

The Tiger Pro is a great all year round bowl as it acts on both fast and slow paced surfaces. It has a stable, predictable mid bias type line and a holding finish that is perfectly suited to the modern competitive game offering bowlers a great range of shot choices. It is a huge favourite of the representative players in the UK at Club and International level. The Ergo Fit profile and Mega Grip will maximise comfort and add precision to every delivery.

Available in heavyweight only.

See page 9 for the full colour and size range.

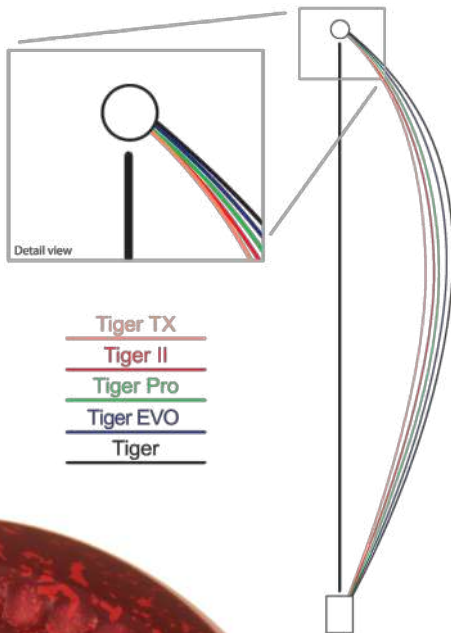

Tiger II Code A10/A15HTP

The Tiger II is perfect for fast outdoor surfaces and indoor greens. It has a draw line just inside the Tiger PRO and offers a lenient, gentle draw to the jack with no hook at the end, making it primarily ideal for front end players. The Ergo Fit profile and Mega Grip will maximise comfort and add precision to every delivery.

Available in heavyweight only.
See page 9 for the full colour and size range.

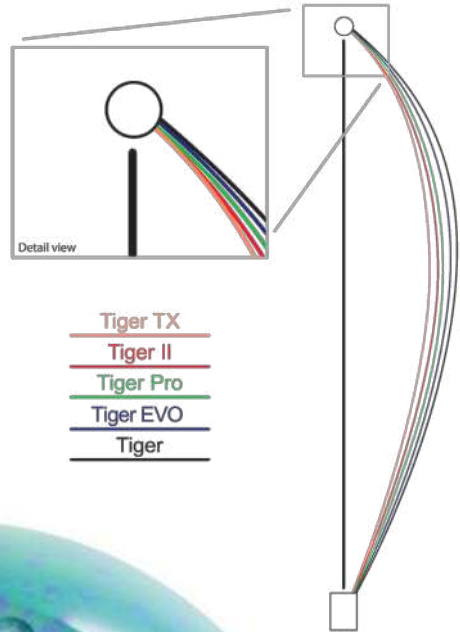

Tiger TX Code A10/A15HTX

The Tiger TX bowl is now the narrowest drawing bowl in the Henselite UK range and could be described as holding a tight line. It has a draw line just inside the Tiger II that offers a steady controlled finish. This makes the Tiger TX a bowl that is most suited to fast surfaces (16 sec plus) and indoor bowling in particular, but is still used by many players all year round. The Ergo Fit profile and Mega Grip will maximise comfort and add precision to every delivery.

Available in heavyweight only.

See page 9 for the full colour and size range.

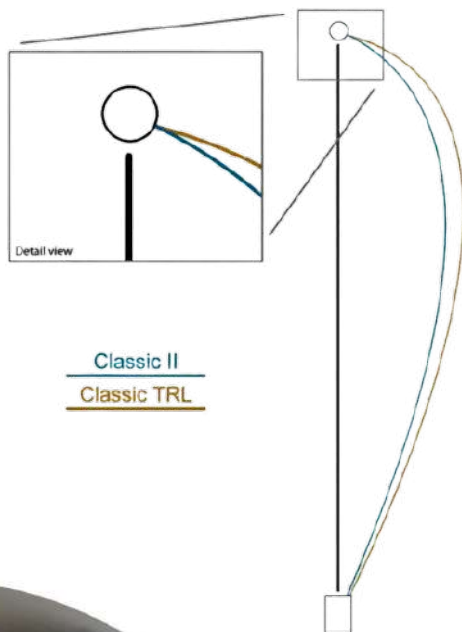

Classic TRL Code A10/A15HC1

The winner of more gold medals at World Bowls and Commonwealth Games than any other model. The Classic Bowl has been given a minor name change and facelift but the traditional bias which has stood the test of time since 1930 remains unchanged. With a traditional hook finish, it is an excellent wide drawing bowl for all outdoor surfaces and slow-paced artificial or indoor surfaces. The full fit profile of the bowl provides stability on windy days and the Series C grip will maximise comfort and add precision to every delivery.

Available in heavyweight only.
See page 9 for the full colour and size range.

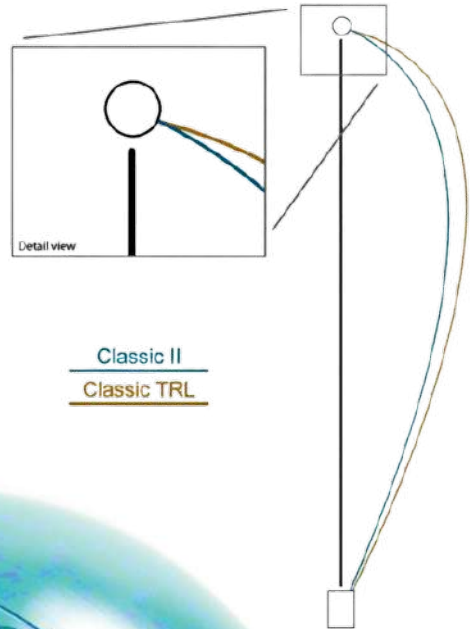

Classic II Code A10/A15HC2

The Classic II is manufactured to run straighter and finish with a less pronounced hook than its stablemate the Classic TRL. The model is ideal for attacking difficult heads as with weighted shots it holds a straighter line which is generally easier to control. Highly recommended for all UK indoor surfaces as well as most outdoor surfaces. The full fit profile of the bowl provides stability on windy days and the Series C grip will maximise comfort and add precision to every delivery.

Available in heavyweight only.

See page 9 for the full colour and size range.

Sterling Slimline Code A20/A25HC2

The long standing and most popular model from Almark for the last decade. Designed with an Ergo fit profile and Deep Dimple grip giving a feeling of comfort when placed in hand.

The Slimline has a mid-bias trajectory that makes it ideal for all surfaces and suitable for bowlers wanting to use the same set of bowls all year round.

Available in heavy/medium in sizes 00-4 in colours pictured below.

**BLACK****DENIM**

Engravings

Personalise your bowls

To personalise your set of bowls, select from our extensive library of unique designs or create your own design. We have a catalogue of thousands of engravings over several categories including animals, abstracts, geometric, astrological, nautical, transport, flowers, buildings, people and many more. You can also add text to a set of bowls, a great idea for club championships or adding a special message to a gift set.

Quality Guarantee

Register your bowls online for Henselite's 10 Year Quality Guarantee and enjoy the satisfaction of knowing that you and your bowling performance will be protected for 10 years. However, note that the Guarantee does not cover chipping caused by contact with sharp objects, colour fading from exposure to the elements and scratching caused by use on sand filled, grass or synthetic greens or burnishing/pitting caused by impact of bowls in the presence of sand, fertiliser and moisture.

Caring for your Bowls

We are so confident in the quality of our workmanship that we guarantee each set of bowls for ten years. However we recommend that you continue to care for your bowls ensuring they perform at their best.

Q. What is the best way to store and transport my bowls?

A. Henselite Bowls Bags are specially designed to protect your bowls when they are being stored or transported. Place the bowls in the bag so that they ride on the running surface, not the engraving. This will protect the engraving from wear and tear.

Q. What do I do if my bowls are in contact with sand or grit?

A. To avoid the abrasive effect of sand or grit, wipe your bowls with a Henselite Polishing Cloth, Sleeve or Quick Dry Cloth. Place them in a case or bag. Ensure that the bottom of your bowls case or bag is free of sand or grit.

Q. How do I retain the shine on my bowls?

A. Regularly polish your bowls with Grippo using a Henselite Polishing Cloth or Sleeve to keep that 'new bowl' sheen. If too much polish accumulates on your bowls, wash the bowls in hot water with soap or mild detergent (such as dish washing liquid) then dry and polish as usual.

Q. Light scratch marks have appeared on the running surface of my bowls. Is this normal?

A. New, highly-polished bowls will always show slight scratch marks on the running surface after use. These marks in no way affect the performance of the bowl or indicate a problem with the bowl. They may usually be polished out using Grippo and a Henselite Polishing Cloth, Sleeve or Quick Dry Cloth or lightly rubbed with fine steel wool and then polished as usual.

Our gents footwear range offers every male bowler the ultimate experience in comfort, support and durability. All of our shoes have specially designed slip resistant sole units which are suitable for both indoor and outdoor bowling.
