Tiger

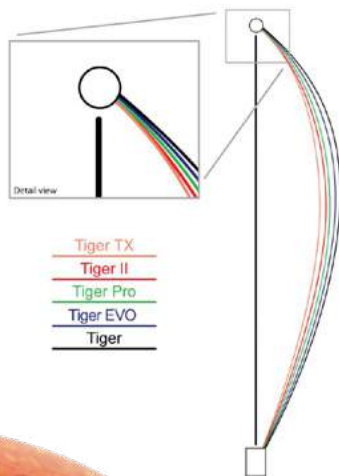

Code A10/A15HT1

The Tiger is a full biased bowl making it ideal choice for both indoor and outdoor bowling. The Tiger has proved to be easily the most successful 'TV tournament' model since its introduction in 2004.

It is highly suited to back end players who require a bowl that has a relatively strong finish to draw round short bowls.

Ergo fit profile and Mega grip as standard.

Colour pictured is Echo Duo.

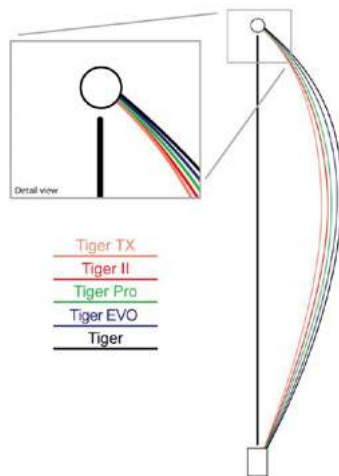

Tiger Evo

Code A10/A15HTE

Developed in partnership with World Champion bowlers, the EVO bias line is the mid-point between the popular Tiger and Tiger Pro. Looking to find that perfect road to the jack it is ideal for a full range of shots. Suitable for all indoor and outdoor surfaces. Ergo fit profile and Mega grip as standard.

Colour pictured is Prism.

Tiger Pro

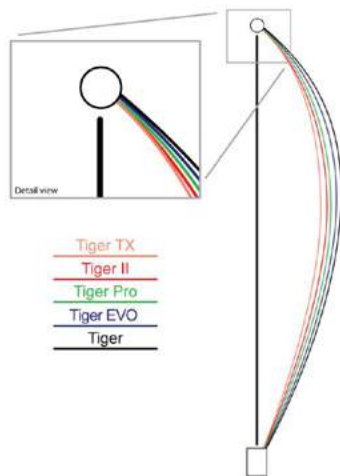

Code A10/A15HTP

The Tiger Pro is a great all year round bowl as it acts on both fast and slow paced surfaces.

With a line between the Tiger and the Tiger II, the Tiger Pro is at home on a variety of green speeds and surfaces, from medium to fast outdoor greens to all indoor surfaces.

Ergo fit profile and Mega grip as standard.

Colour pictured is Grapevine.

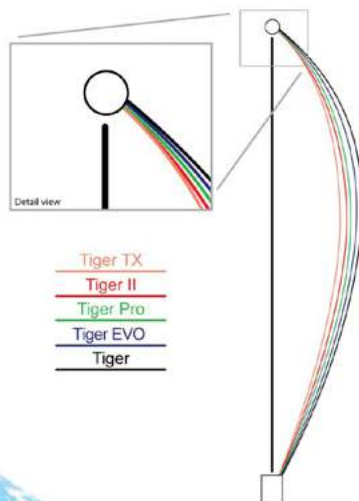

Tiger II

Code A10/A15HT2

The Tiger II is perfect for fast outdoor surfaces and indoor greens. It has a draw line just inside the Tiger PRO and offers a lenient, gentle draw to the jack with no hook at the end, making it primarily ideal for front end players. Ergo fit profile and Mega grip as standard.

Colour pictured is Celeste Duo.

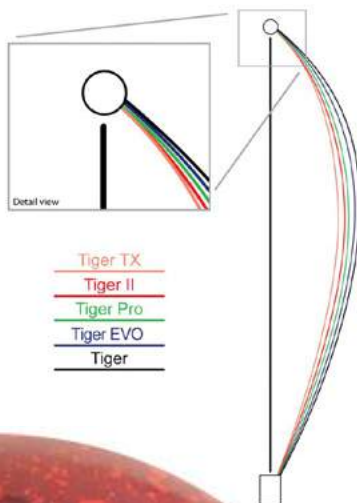

Tiger TX

Code A10/A15HTX

The Tiger TX is now the narrowest drawing bowl in the Henselite UK range and could be described as holding a tight line. A draw line just inside the Tiger II that offers a steady controlled finish. Most suited to fast surfaces (16+ second) and indoor bowling, it may also suit many players all year round.

Ergo fit profile along with Mega grip, will maximise comfort and add precision to every delivery.

Colour pictured is Ruby Rich.

Classic TRL

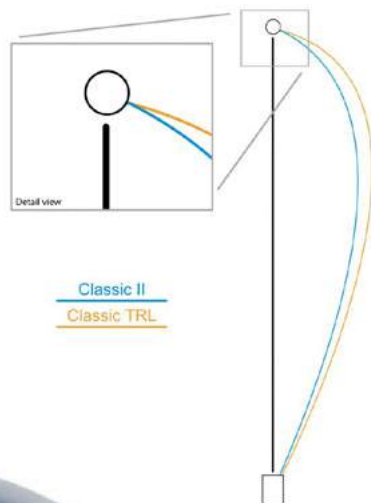

Code A10/A15HC1

The proven legend has recently been given a minor name change and facelift but the traditional bias which has stood the test of time since 1930 wherever lawn bowls is played remains unchanged.

The bowl with the famous 'hockey stick bias' is an excellent wide drawing bowl for all outdoor surfaces and slow paced artificial surfaces.

Full fit profile bowl and Series C grip as standard.

Colour pictured is Midnight.

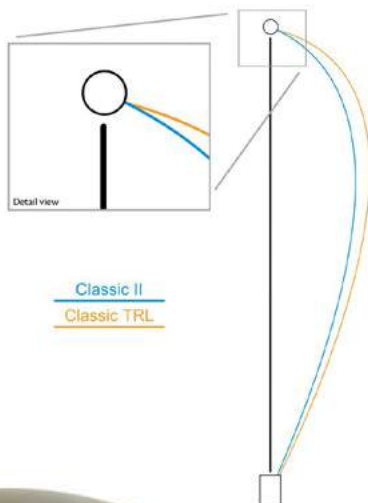

Classic II

Code A10/A15HC1

The Classic II is manufactured to run straighter and finish with a less pronounced hook that its stable mate the Classic TRL.

The model is ideal for attacking difficult heads and is recommended for all UK indoor surfaces as well as fast paced outdoor surfaces. Full fit profile bowl and Series C grip as standard.

Colour pictured is Black.

Purple

Clubhawk 9ft Measure

Code A65P078

- Easy release, retractable, non-stretch string which extends up to 9' in length.
- Compact, lightweight and durable moulded casing.

Available in White only.

Kestrel Measure

Code A65P079

7ft compact and ideal for pocket measure with retractable stainless steel cord

Available in Blue only

Henselock Measure

Code A67H075

The Henselock Measure has a durable, moulded casing and a rustproof, steel-coated tape 1.8 metres in length (5'11"). The Henselock Measure also includes separate callipers for a close measure which store away tidily inside the measure casing.

Grippo Tube

Code A60H181

- The biggest selling bowls polish in the world. Assists with grip and easy to apply from aluminium barrier layer tube with flip top cap.
- Apply sparingly to surface of bowl, allow to dry, polish with soft bowls cloth or polishing sleeve
- To order a display box of Grippo, order 30 Tubes. For multiple display boxes, order in multiples of 30. Can also be ordered singleular

Betts Bowl Grip

Code A60O184

Popular combination polish and grip. Adds lustre to bowls when polished and adds grip when applied to fingers.

Available to retailers in 20 tube display pack.

Bowlers can get any grip to suit.

Simply massage Grip all over the bowl with hands until they start to draw on bowl, then polish

The less you message - less grip

Provides good grip and perfect control.

Proven performer in wet conditions.

Wilgrip Tube

Code A60H183

Henselite Wilgrip is the world renowned, multi-purpose concentrated sports grip. Wilgrip helps provide additional grip in all weather conditions for a range of sports including bowls, football, basketball, golf and tennis. Easy to apply from aluminium barrier layer tube with screw cap.

To order a display box of Wilgrip, order 30 Tubes. For multiple display boxes, order in multiples of 30. Can also be ordered singleulary.

Bulldog Grip

Code A60O182

Clean, convenient to use. Store it in your pocket whilst bowling, keeps hands dry and allows for a smooth controlled delivery.

Soften by squashing it between the heels of the hand. Once it has been softened it can be applied by lightly rolling it in the finger tips. This applies a thin film of the grip to the fingertips providing positive grip with the bowl. In doing this a small amount of grip transfers to the bowl and by using a polishing cloth, it will keep the bowl polished.

- Ideal for wet weather play.
- Convenient to use and will not stain clothing.

Champion Grip Polish

Code A600187

Champion Grip Bowls Spray & Polish helps you achieve a consistent, reliable grip even in wet conditions. It allows you to hold your bowl lightly and confidently, promoting a smoother, more controlled delivery every time.

Perfect for clubs or shops, Champion Grip Spray comes in a convenient 12-can display box.

Toucha

Code A61HTCH

Easy to use, pressure pack, for marking touchers. Easily carried and may be applied to bowl without any risk of moving the bowl.

Available in White and Lilac

Up to 250 applications.

10g pressure pack for marking touchers

Portable and handy

Can be applied without moving the bowl

GREENGAUGE SURFACES

A WORLD CLASS INDOOR BOWLING SURFACE

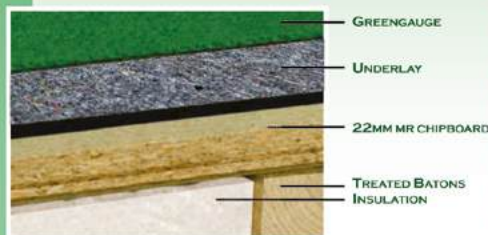

The World Bowls Approved Greengauge indoor woven surface has been available for over 50 years and is supplied through Argyle International Limited. A tried and tested surface that is by far the most played on artificial surface in the World. Greengauge is 'The World's No.1 selling Indoor Surface'... In fact the first indoor bowling surfaces in India, Malaysia and South Africa were installed by Greengauge. Manufactured from 100% polypropylene it is incredibly durable, and provides superb bowling characteristics that bowlers enjoy.

A WORLD CLASS UNDERLAY

Greengauge Gold PX underlay is manufactured in the UK and is better engineered, better designed and manufactured to tighter tolerances to withstand the rigours of indoor bowling. Choosing a Greengauge underlay is critical to the future performance and speed of the bowling green. **Greengauge Gold PX** is currently our top of the range product and generally delivers speeds between 17 and 18 seconds that most Indoor Clubs appreciate. For Bowling Clubs looking for slower speeds this can be accommodated with Greengauge 1,500g/m² underlay. Without doubt combining a Greengauge surface with a Greengauge underlay provides the perfect combination for Performance, Speed and Durability.

A WORLD CLASS TIMBER FLOOR SYSTEM

Built to tolerances of $\pm 0.5\text{mm}$ over 3m, a Greengauge timber floor uses only the very best materials. Installation is very quick, typically only 2 weeks for a 6 rink green. In recent years Greengauge has been awarded some of the most prestigious contracts not only in the UK but all over the world. By choosing a quality Greengauge timber floor this will only increase the playing performance of the Greengauge surface and Duralay SuperGold underlay. For bowling clubs considering improving their existing floor, give us a call for the best advice on the options available.

INDOOR MAINTENANCE PROGRAMME

Indoor Greengauge surfaces are installed by our own teams of experienced and dedicated fitters. Every installation is given a full commitment until all work is completed to our customers satisfaction. Greengauge also offers a range of maintenance contracts to suit all needs and budgets. Our full after sales service offers you peace of mind, 7 days a week, 52 weeks a year. The Greengauge bowling surface is one of the most important parts of any bowling club and Greengauge is there to ensure it is operational at all times.

"I have played on many surfaces in recent years but the best by far is Greengauge, a truly world class bowling surface"

-Nick Brett, Former World Singles and Pairs Champion.

GREENGAUGE SURFACES

A WORLD CLASS OUTDOOR BOWLING SURFACE

Have you ever considered an outdoor artificial bowling green? If you have, Greengauge offer the complete turn-key solution. The existing Greengauge fitting team have over 60 years of experience in ensuring the best possible outcome. From start to finish Greengauge can project manage all facets of the contract including any civil engineering works. The end result being a fully installed bowling green surface that the members can enjoy all year round. Whether it be a Flat or Crown green your club is considering, please don't hesitate to contact us for the best advice.

A WORLD CLASS BASE

- Preparation of site
- Installation of drainage
- Engineered base designed for local conditions
- Surface designed to World Bowls approved tolerances

The World Bowls Approved Greengauge outdoor surface is available in two main qualities - woven and needle punched. Both are made of 100% polypropylene. A third option, sand filled is available if specified by the club. All qualities are UV stabilised and with the correct maintenance will provide many years of pleasurable bowling and will give the club an unbeatable surface in terms of Performance, Speed and Durability. Greengauge outdoor surfaces are cost effective - no more greenkeeper fees, chemicals and expensive green dressings.

OTHER ADVANTAGES INCLUDE:

- Fast drainage
- Fully guaranteed
- Very low maintenance
- True playing characteristics

OUTDOOR MAINTENANCE PROGRAMME

Outdoor Greengauge surfaces are installed by our own teams of experienced and dedicated fitters. Every installation is given a full commitment until all work is completed to our customers satisfaction. Greengauge also offers a range of maintenance contracts to suit all needs and budgets. Our full after sales service offers you peace of mind, 7 days a week, 52 weeks a year. The Greengauge bowling surface is the most important part of any club and Greengauge is there to ensure it is operational at all times.

"When you walk onto a Greengauge surface you know the match result is down to your own ability and performance"

Greg Harlow, Former World Singles and Pairs Champion.

GREENGAUGE SURFACES

WORLD CLASS OVERSEAS EXPANSION

Greengauge is a truly World Class product installed in over 27 bowling countries around the world. Other brand names for the product include BowlsWeave and GreenWeave both as the name suggests a woven surface. Greengauge Punch 650 is our robust needle punched bowling surface product. We here at Greengauge can advise on base construction and best surface options whether it is indoor or outdoor and can assist local contractors and bowling clubs with a full consultancy package if one is needed.

This includes having available Greengauge personnel with over 60 years experience in the sport. Recent landmarks for Greengauge have included South Korea, Hong Kong, Hawaii, Canada, Malaysia, Philippines, Cyprus and Spain. With us fast approaching nearly 250 installations in Australasia alone, our market leading position is secured. A Greengauge supplied UV stabilised bowling surface and underlay, combined with our Greengauge specified base will provide clubs with a World Class Bowling Green.
