Henselite[®]
Choice of Champions

Welcome

Crystals Limited is a Company committed to providing great customer care and service to all our Greengauge business partners.

Our market leading products include the World's No.1 bowling brand HENSELITE and the World's No.1 bowling surface GREENGAUGE. Other international brands include Almark, Prohawk, Pelham, Dawn.

This coming 12 months sees us extending our Henselite range of clothing, bowling bags, and market leading footwear styles. After last year's success of our Prohawk clothing, shoes and measures ranges we have extended the brand to include a new bowls trolley bag and a range of unisex waterproofs. Finally we have developed our Greengauge Short Mat range.

This year we successfully completed our first in the role as equipment supplier for the Short Mat Players Tour. Everyone should look out for our new medium to fast pace Greengauge Needle Punch Tour and the slower pace Greengauge Needle Punch Club short mats. Furthermore we have extended the range further by developing the World's best indoor bowling surface to a Short Mat version – The Greengauge Woven Deluxe Short Mat is available in three colours. This top of the range product has already been well received and meets slower to medium pace demands.

The extensive range of stock that we carry, ensure that Greengauge Sports should always be your first call to satisfy your customers bowling needs. Our professional 'on the road' sales team includes world stage stars Greg Harlow and Alex Marshall MBE who along with our internal sales team ensure that personal contact, quick response, and an on time delivery service are our top priority.

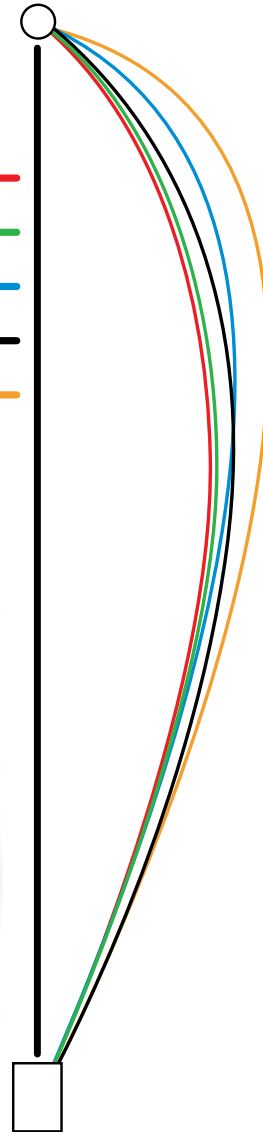

This catalogue provides detailed product information and allows customers to view specific items in more detail. We will continue to focus on product improvement and development as a key priority thus maintaining the Henselite and Greengauge principle of innovation and retaining its reputation as the World's leading bowling brands. Our brochure will be available online at www.greengaugesports.com/catalogue and will be continually updated to reflect our evolving product range.

On a final note we appreciate for many businesses times are tough at present and our sport needs championed more than ever. We here at Crystals thank you for your efforts. Everyone at Crystals promises that they will do their very best to support your business in the future.

Graham Robertson
Managing Director

Tiger II Code HCG

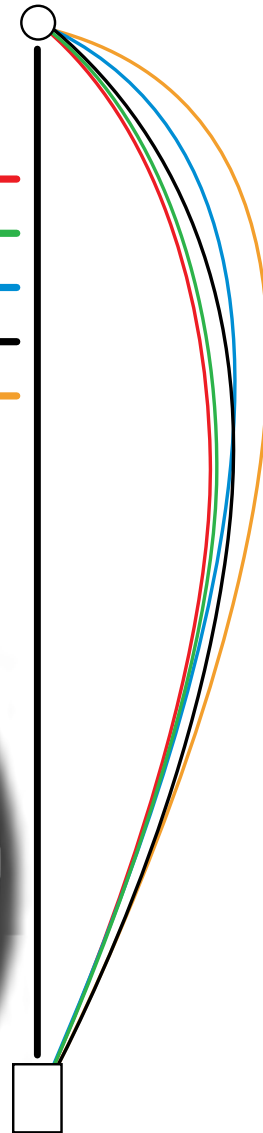

The Tiger II is the narrowest drawing bowl in the Henselite UK range. It has a draw line just inside the Classic II, making it most suited to fast paced indoor surfaces. The ergo fit profile and series C grip will maximise comfort and add precision to every delivery. Available in heavyweight only (sz 0-5).

Tiger Pro Code HTPRO

Given the successes of both the Tiger II and Tiger Henselite found that bowlers in the UK were still searching for a bias choice between the aforementioned models. After a period of testing the Tiger Pro bias was manufactured to meet that mid bias line and is now the most demanded UK indoor model by representative players. The ergo fit profile and series C grip will maximise comfort and add precision to every delivery. Available in heavyweight only (Sz 0-5).

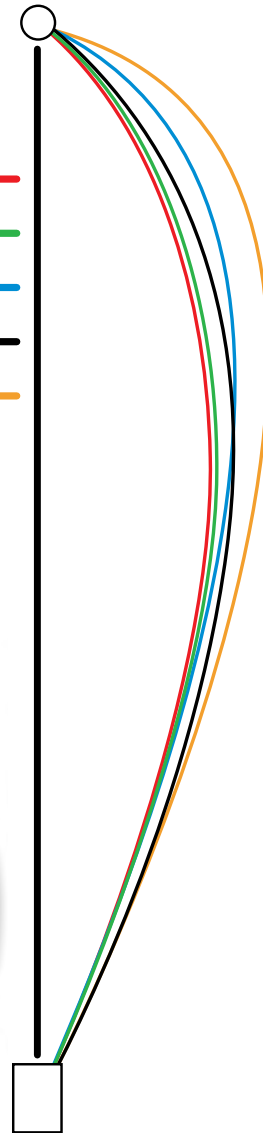

- Tiger II
- Tiger Pro
- Classic II
- Tiger
- Classic TRL

Tiger Code HTG

The Tiger is a full biased bowl making it ideal choice for both indoor and outdoor bowling. The Tiger has proved to be easily the most successful 'TV tournament' model since its introduction with it being used by 8 World Indoor Singles Champions in the past 11 years. It is highly suited to second's, thirds and skips as they require a bowl that has a relatively strong finish to draw round short bowls. The ergo fit profile and series C grip will maximise comfort and add precision to every delivery. Available in heavyweight only (Sz 0-5).

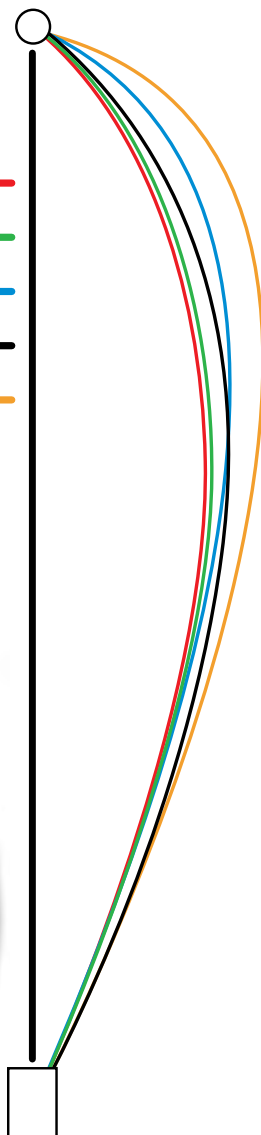

- Tiger II
- Tiger Pro
- Classic II
- Tiger
- Classic TRL

Classic II Code BCG

The Classic II is manufactured to run straighter and finish with a less pronounced hook than its stable mate the Classic TRL. The model is ideal for attacking difficult heads and is recommended for all UK indoor surfaces as well as fast paced outdoor surfaces. The Classic II is a full fit profile bowl and the series C grip will maximise comfort and add precision to every delivery. Available in mediumweight (Sz 1-5) and heavyweight (Sz 0-5)

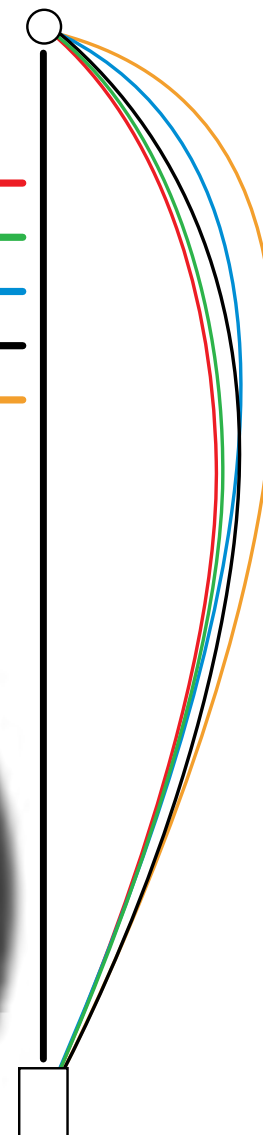

Tiger II
Tiger Pro
Classic II
Tiger
Classic TRL

Classic TRL Code BEGTRL

The proven legend has recently been given a minor name change and face lift but the traditional bias which has stood the test of time since 1930 wherever lawn bowls is played remains unchanged. The bowl with the famous 'hockey stick bias' is an excellent wide drawing bowl for all outdoor surfaces and slow paced artificial surfaces. The full fit profile of the bowl provides stability on windy days and it now boasts the popular series C grip which maximises comfort and add precision to every delivery. Available in mediumweight (Sz 1-5) and heavyweight (Sz 0-5)

Almark Sterling Range

Almark Arrow Code ARG

The Arrow has been manufactured with fast surfaces and front end play in mind. The bias line although narrow has a distinctive curve when the weight comes off the bowl. A full fit profile bowl with a deep dimple grip. Available in HEAVYWEIGHT only in sizes 00-5 in BLACK only.

Almark Arrow
Sterling Slimline
Sterling Gold

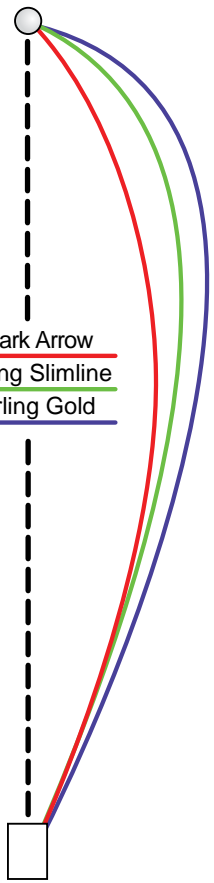

Sterling Slimline Code SLG

The Slimline is the biggest selling bowl in the Almark range. It has an Ergo fit profile with a mid bias that makes it ideal for all surfaces and suitable for bowlers wanting to play with the same set all year round. Deep dimple grip and available in sizes 00-5HM in BLACK. Also available in the speckled colours RUBY RICH, MIDNIGHT and OCEAN GREEN in sizes 00-4HM.

Sterling Gold Code AGG

The strongest bias bowl in the Almark range. Recommended for all outdoor surfaces, slower paced indoor surfaces and short mat. A full fit profile bowl with unique hand grip that is comfortable in the hand. Available in HEAVYWEIGHT in sizes 00-5. Available in BLACK only.

Care of your Bowls

Bowls leave the factory in a highly polished condition and with good care this lustre may be retained on Henselite bowls for many years by noting the following hints:

1. Sand, grit etc. has an abrasive effect on bowls. Wipe your bowls after use before placing them in your case or bag.
2. Ensure the bottom of your bowls case or bag is free of sand or grit and place bowls so they ride on the running surface not the engraving.
3. Regularly polish your bowls with Grippo using a Henselite polishing cloth or sleeve;
4. If too much bowls polish accumulates on bowls, wash bowls in hot water with soap or mild detergent - dry and polish.
5. New, highly polished bowls will always show slight scratch marks on the running surface after use, particularly if greens have been recently top-dressed. These "scratch" marks in no way affect the performance of the bowl [or indicate an ingredient softness] and may usually be polished out.
6. In some areas, the sand or top dressing used on the greens is a sharp, abrasive, granite-type sand and bowls will scratch or wear more readily but again, the performance of the bowl is not affected providing the wear on the running surface is even.
7. If you regularly use two or three bowls, rotate the four bowls in your set to ensure any wear is evenly distributed [It takes only minimal wear for the bias to be affected, this ensures your bowls remain matched for bias].
8. Coloured bowls may mark easily from ditch contact and general play, clean your bowls gently by washing with a mild detergent.

New sets of Henselite Bowls are perfectly matched sets of four bowls in weight and bias and each bowl is guaranteed for 10 years against cracking or breaking from the date of manufacture. This may be related to the World Bowls Stamp Number located on each set or from the date on the purchase receipt.

The Henselite 10 year guarantee does NOT cover:

1. Chipping - caused through contact with sharp objects.
2. Burnishing - [pitting] caused by impact of bowls in the presence of sand and moisture.
3. Scratching - caused by regular use on sand filled grass or synthetic greens.
4. The bias of Lawn Bowls may be effected by wear and it is recommended that your bowls be re-tested at approximately three year intervals to ensure compliance with World Bowls Ltd regulations.
5. Coloured bowls - It is possible that a variation in colour may occur due to Ultra Violet exposure, such changes are not covered by guarantee

Ladies Shoes
