A warm welcome to all bowlers. We hope that you find our NEW product catalogue for 2021/22 to your liking.

Who would have thought that our bowling world would have been turned upside down in March 2020? The impact of the horrible COVID-19 virus, the tragic loss of life, and the ongoing nature of the virus had made the future extremely difficult to predict. Our thoughts go out to all the families affected, and our thanks go to the NHS, care workers, and everyone who has pulled together in these difficult times to fight this virus. The excellent vaccination programme gives us new hope for a more normal future. Let us hope that the success of the programme continues as normal, as it sounds incredibly good!

The major news — recently — is that after over 100 years of bowling excellence, Henselite has been acquired by the Paterson family based in Melbourne. We look forward to working with Ian and Thomas and developing the World's most iconic bowling brand further in the years ahead.

On the product front, the Henselite Victory value range of Gents shoes has been completely revamped, and it now includes a new sole unit and memory foam inner sole.

Henselite continues to focus on product development and innovation: look out our for our NEW Henselite Premium Lightweight styles featuring Impact X technology, that absorbs impact and provides additional comfort for feet and legs arriving into stock in the summer.

What a season for Team Henselite players! Mark Dawes won the World Open Singles, and he then paired up with Team Henselite's Jamie Chestney to win the World Indoor Pairs. Special mentions also to Greg Harlow and Katherine Rednall, both runners-up in their Singles, and Nick Brett who retained the No.1 spot.

Check us out at www.henselite.co.uk or like and follow us, Henselite UK, on Facebook, for the latest updates.

Our individually designed Henselite Club Clothing range is proving to be a huge hit with clubs throughout the UK bringing some much-needed COLOUR into our sport. Check out www.clubclothingshop.co.uk.

This [catalogue](#) will be updated on an ongoing basis. Further new products and news updates will be announced on our website and Facebook page.

Greengauge acquired the popular Emsmorn brand in 2019; and the new Emsmorn product brochure is available at www.emsmorn.co.uk. And all products are in stock.

Our Sport of bowls continues to be a focal point in communities throughout the UK. Let's all hope that 2021 is the season where Bowls makes a huge comeback, and we can enjoy the fresh air of the Outdoors, and roll into the Indoor in September, 2021. Everyone here at Greengauge is looking forward to promoting our Sport and working with our valued customers to make 2021 a great success. ©

Managing Director

Tiger Code A10/A15HT1

The Tiger is a full biased bowl making it ideal choice for both indoor and outdoor bowling. The Tiger has proved to be easily the most successful 'TV tournament' model since its introduction in 2004 with it being used by 7 different players in winning 11 World Indoor Singles Championships. It is highly suited to back end players who require a bowl that has a relatively strong finish to draw round short bowls. The Ergo Fit profile and Mega Grip will maximise comfort and add precision to every delivery.

Available in heavyweight only.

MYSTIC

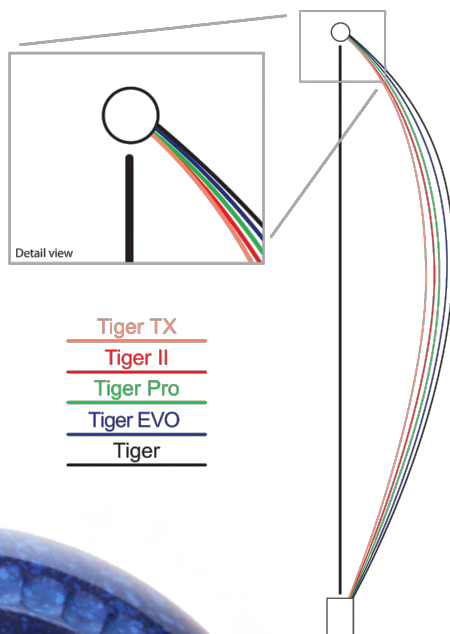

See page 10 for Colour and Size options

Tiger EVO Code A10/A15HTE

Developed in partnership with World Champion bowlers, the Tiger EVO bias line is the mid-point between the popular Tiger and Tiger Pro. Looking to find the perfect road to the jack, the EVO is ideal for a full range of shots and is suitable for all indoor and outdoor surfaces. The Ergo Fit profile and Mega Grip will maximise comfort and add precision to every delivery.

Available in heavyweight only.

MIDNIGHT

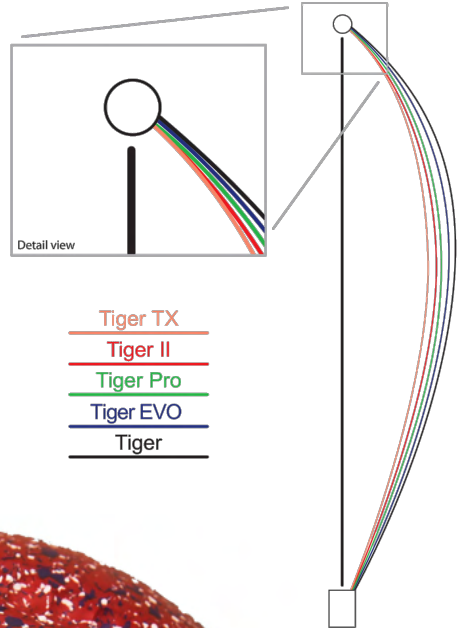

See page 10 for Colour and Size options

Tiger Pro Code A10/A15HTP

The Tiger Pro is a great all year round bowl as it acts on both fast and slow paced surfaces. It has a stable, predictable mid bias type line and a holding finish that is perfectly suited to the modern competitive game offering bowlers a great range of shot making. It is a huge favourite of the representative players in the UK at Club and International level. The Ergo Fit profile and Mega Grip will maximise comfort and add precision to every delivery.

Available in heavyweight only.

ATOMIC RED

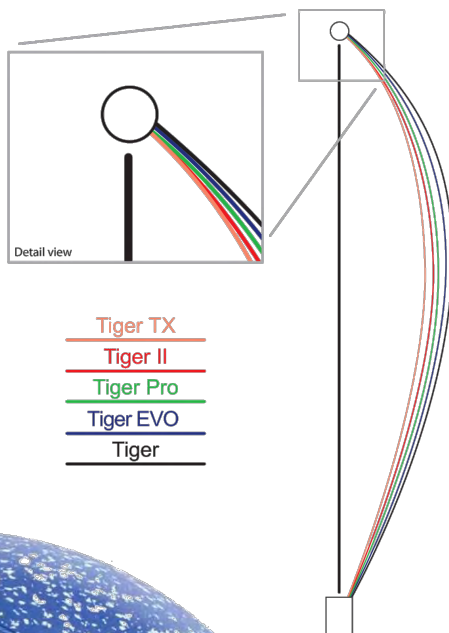

See page 10 for Colour and Size options

Tiger II Code A10/A15HTP

The Tiger II is perfect for fast outdoor surfaces and indoor greens. It has a draw line just inside the Tiger PRO and offers a lenient, gentle draw to the jack with no hook at the end, making it primarily ideal for front end players. The Ergo Fit profile and Mega Grip will maximise comfort and add precision to every delivery.

Available in heavyweight only.

PLANET EARTH

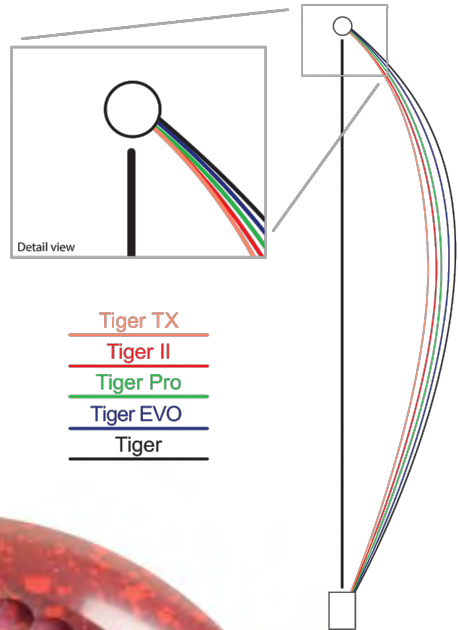

See page 10 for Colour and Size options

Tiger TX Code A10/A15HTX

The Tiger TX bowl is now the narrowest drawing bowl in the Henselite UK range and could be described as holding a tight line. It has a draw line just inside the Tiger II that offers a steady controlled finish. This makes the Tiger TX a bowl that is most suited to fast surfaces (16 sec plus) and indoor bowling in particular, but is still used by many players all year round. The Ergo Fit profile and Mega Grip will maximise comfort and add precision to every delivery.

Available in heavyweight only.

RUBY RICH

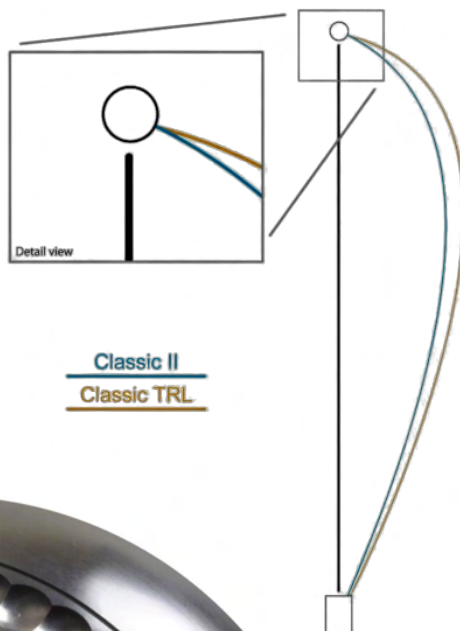

See page 10 for Colour and Size options

Classic TRL Code A10/A15HC1

The winner of more gold medals at World Bowls and Commonwealth Games than any other model. The Classic Bowl has been given a minor name change and facelift but the traditional bias which has stood the test of time since 1930 remains unchanged. With a traditional hook finish, it is an excellent wide drawing bowl for all outdoor surfaces and slow-paced artificial or indoor surfaces. The full fit profile of the bowl provides stability on windy days and the Series C grip will maximise comfort and add precision to every delivery.

Available in heavyweight only.

BLACK

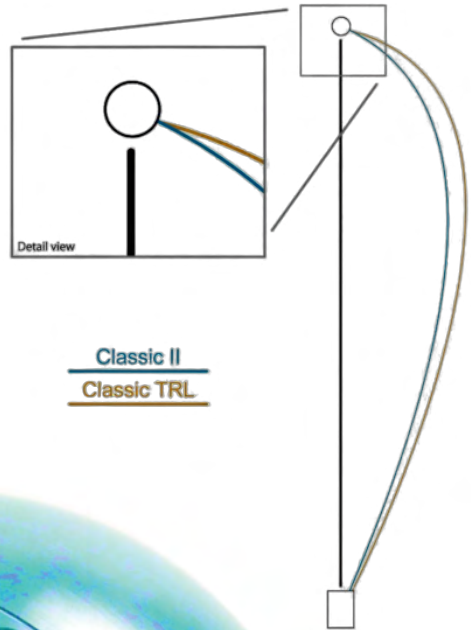

See page 10 for Colour and Size options

Classic II Code A10/A15HC2

The Classic II is manufactured to run straighter and finish with a less pronounced hook than its stablemate the Classic TRL. The model is ideal for attacking difficult heads as with weighted shots it holds a straighter line which is generally easier to control. Highly recommended for all UK indoor surfaces as well as most indoor surfaces. The full fit profile of the bowl provides stability on windy days and the Series C grip will maximise comfort and add precision to every delivery.

Available in heavyweight only.

Sterling Slimline Code A20/A25ASS

The long standing and most popular model from Almark for the last decade. Designed with an Ergo fit profile and Deep Dimple grip gives it a feeling of comfort when placed in hand.

The Slimline has a mid-bias trajectory that makes it ideal for all surfaces and suitable for bowlers wanting to use the same set of bowls all year round.

Available in heavy/medium in sizes 00-4 in colours pictured below.

Engravings

Personalise your bowls

To personalise your set of bowls, select from our extensive library of unique designs or create your own design. We have a catalogue of thousands of engravings over several categories including animals, abstracts, geometric, astrological, nautical, transport, flowers, buildings, people and many more. You can also add text to a set of bowls, a great idea for club championships or adding a special message to a gift set.

Quality Guarantee

Register your bowls online for Henselite's 10 Year Quality Guarantee and enjoy the satisfaction of knowing that you and your bowling performance will be protected for 10 years. However, note that the Guarantee does not cover chipping caused by contact with sharp objects, colour fading from exposure to the elements and scratching caused by use on sand filled, grass or synthetic greens or burnishing/pitting caused by impact of bowls in the presence of sand, fertiliser and moisture.

Caring for your Bowls

We are so confident in the quality of our workmanship that we guarantee each set of bowls for ten years. However we recommend that you continue to care for your bowls ensuring they perform at their best.

Q. What is the best way to store and transport my bowls?

A. Henselite Bowls Bags are specially designed to protect your bowls when they are being stored or transported. Place the bowls in the bag so that they ride on the running surface, not the engraving. This will protect the engraving from wear and tear.

Q. What do I do if my bowls are in contact with sand or grit?

A. To avoid the abrasive effect of sand or grit, wipe your bowls with a Henselite Polishing Cloth, Sleeve or Quick Dry Cloth. Place them in a case or bag. Ensure that the bottom of your bowls case or bag is free of sand or grit.

Q. How do I retain the shine on my bowls?

A. Regularly polish your bowls with Grippo using a Henselite Polishing Cloth or Sleeve to keep that 'new bowl' sheen. If too much polish accumulates on your bowls, wash the bowls in hot water with soap or mild detergent (such as dishwashing liquid) then dry and polish as usual.

Q. Light scratch marks have appeared on the running surface of my bowls. Is this normal?

A. New, highly-polished bowls will always show slight scratch marks on the running surface after use. These marks in no way affect the performance of the bowl or indicate a problem with the bowl. They may usually be polished out using Grippo and a Henselite Polishing Cloth, Sleeve or Quick Dry Cloth or lightly rubbed with fine steel wool and then polished as usual.

Premium Range Gents Shoes
